2012-2013 SCCLL Technology Committee Report (July 2013)
Submitted by Madeline Cohen, Chair

Accomplishments

- Kate Fitz continued to assist AALL in the migration of SIS webpage content into the AALL content management system (CMS). Our SCCLL page went "live" in March.
- The SCCLL Wiki continues to be an excellent resource for members to post articles and engage in professional discussions.
- Committee members were not able to have a Spring conference call, despite our best efforts to coordinate our schedules. However, there were good email discussions about the webpage migration, as well as continued work on the Wiki.
- I will likely be stepping down as Chair of the Technology Committee.

Charge

The SIS Web site is our most prominent illustration of the varied communication talents and legal information expertise of our members. The continued development and reorganization of this major marketing and information resource is of paramount importance.

Goals

- Annually evaluate content of the website.
- Brainstorm ideas for new content, as well as solicit ideas from membership.
- Actively market the existence and use of the SCCLL Wiki.
- Write and submit grant proposal for the AALL/Bloomberg Continuing Education Grants Program.
- Maintain a manual of procedures and/or timeline for the committee.
- Establish structure and timing of conference calls to maintain regular and essential contact among committee members.
