Process Summary

The reporting procedures worked to provide input to the MiA Steering Committee (consisting of the chair and all members of the MALL Executive Board). The MALL committee chair's report demonstrated how MALL committees were implementing MALL visions for 2000-2001. The report forms worked as an alternative to the mid-year Chair's Breakfast. The forms may also be used to help committee chairs prepare their committee annual reports. Another outcome was increased interaction between MALL executive board liaisons and MALL committee chairs.
