Tips for Creating a Professional Presence Using LinkedIn

- Professional photo of you (alone)
- Headline that features who you are professionally – not just your title
- Think of your summary as a 60-second introduction or elevator pitch
 - Use keywords of the profession
 - Can also feature your philosophy on librarianship or your professional bio
- Experience:
 - Make sure to include a description for each listing so people can see what your experience entailed and your accomplishments
- Making connections:
 - Be discerning and strategic – have a plan for making connections
 - Customize LinkedIn connection messages to explain who you are and why you'd like to connect if you don't know an individual
 - Join LinkedIn Groups to help you meet new potential connections
 - Plan to contribute – connections and group memberships are only valuable if you actively participate
- Share your work
 - If you've done a great presentation you want to share with the world – share it
 - Link to articles you've written
- Etiquette
 - ALWAYS use proper grammar and spelling
 - Respond to requests and messages in a timely manner
 - Consider your audience with everything you post – be professional
- Maintain your profile – take a few minutes a month to make sure it is up-to-date
- Review it as a third person (or have someone else review your profile) so you can make sure it is properly communicating your message

Business Cards - Don't Conference Without Them

- [Vista Print](#)
