# PROGRAMS

## Must-Have Programs

The 2018 Annual Meeting Program Committee solicited—and in some cases, curated—“must-have” programs on timely topics that AALL members have identified as being vital to their professional education. As you peruse the event listings, look for these programs, shaded in blue.

## Supporting Diversity and Inclusion

## Introducing the AALL Body of Knowledge

AALL’s new Body of Knowledge (BoK) sets forth the core domains, competencies, and skills needed by today’s information professionals. Designed to serve as a blueprint for career development by legal information professionals, the BoK also provides the framework for AALL’s educational offerings, including the programs you’ll attend in Baltimore. The core domain(s) represented by each program are designated with the following icons:

**Professionalism & Leadership at Every Level**

**Research & Analysis**

**Information Management**

**Teaching & Training**

**Marketing & Outreach**

**Management & Business Acumen**

*Access the comprehensive BoK at [www.aallnet.org/bodyofknowledge](http://www.aallnet.org/bodyofknowledge).*

## You're Invited! AALL 2018 Exhibitor Showcases Presented by Wolters Kluwer

### Monetizing Your Law Firm's DMS

Wolters Kluwer Legal & Regulatory U.S.

**Presented by: Dean Sonderegger**, Vice President & General Manager, Legal Markets and Innovation, Wolters Kluwer Legal & Regulatory U.S.

**Date:** Sunday, July 15 at 2:30pm - 3:30pm

**Location:** BCC Room 323

The rich set of contracts stored in a law firm's DMS contains a wealth of intellectual property. While firms may pay publishers and vendors to create standards for their contracts, they may already have the tools needed to do it themselves. Our session explores strategies to structure your DMS, and monetize the assets.

One of the allures of emerging AI technology is the ability to - based on past history - predict future outcomes. Consider a world in which you were able to reach out to your client and alert them that a bill suddenly became very likely to pass and explain how the bill will impact their business. Now THAT would be value added and certainly an AHA moment for the client. Our session explores new technologies in legal profession in instances of predicting regulatory outcomes, as well as managing the challenges of researching changes to the law over time.
