

MON. 7/12 4:00PM — CS-SIS PROGRAM: DATABASE OWNERSHIP: MYTH OR REALITY?

2010 AALL ANNUAL MEETING AND CONFERENCE

Date/Time: Mon, Jul 12 4:00pm - 5:15pm

Location/Room: CCC-Room 107

For some databases, vendors advertise the option to purchase data outright so libraries "own" the content if the vendor goes out of business or the library cancels its subscription; this option is expensive but promises perpetual access to the data. Join the Barco Law Library staff as they explain the hidden costs of "owning" a database and the difficulties of storage and access when a subscription was cancelled and the vendor provided content as promised.
