

SCCLL Strategic Planning Committee  
2005/2006 Report

The committee began to work on a new strategic plan in August 2005 when hurricane Katrina disrupted that work. As a result of the delay, the committee felt it could not follow the traditional SWOT analysis. The 2005–2010 AALL Strategic Planning committee had recently obtained input from members, including specifically SCCLL members. The committee decided to solicit additional input by including a short survey with the electronic ballot for SCCLL elections. Marcus Hochstetler, Treasurer/Secretary coordinated that effort. The committee concluded that SCCLL members continue to have concerns primarily related to advocacy on the value of law libraries and law librarians, and continuing education programming tailored to the needs of SCCLL members. The committee hopes to present a draft of the 2006-2011 strategic directions to the membership in St. Louis and in the fall 2006 newsletter.
