

REPORT OF THE TECHNOLOGY COMMITTEE

DATE: June 8, 2020

TO: James Durham

FROM: Technology Committee Chair, Laurel Moran

RE: Report of the Technology Committee

The Technology Committee has continued to work with Chris Siwa at AALL to update the Government Law Library SIS web site. Most of the work is routine and includes updates to the newsletter, changes and updates on committee members, uploading annual reports, setting up forms for GLL grants, and awards. If anyone sees any errors or updates that are needed please inform Laurel Moran directly at lmoran@sdlawlibrary.org.

There are committees reviewing and planning to make updates to the GLL website over the next couple of months. They are looking for input and suggestions. To date, Technology has not received any list of suggestions or amendments for sprucing up the website so no work has been done on that effort.

Information was given (from Chris Siwa) to the board on the proper branded templates to use for reports. Back in 2017, branded templates were created and shared with each SIS. Chris encourages each SIS to please start updating their documents (award applications, minutes, reports, etc.) using these templates so there's consistency across the board. GLL-SIS branded assets can be found at <https://aallhq.app.box.com/v/SISassets/folder/38963259153>.

This last quarter, technology added several back issues of our newsletter to the website, thanks to donations of content from Sarah V. Pic. We also updated a listing of Chair of the Strategic Planning Committee.
