### **REPORT**

The Technology Committee has continued to work with Chris Siwa, the Director of Information Technology, to update the GLL-SIS web site. Most of the work is routine and includes updates to the newsletter, changes and updates on committee members, uploading annual reports, setting up forms for GLL grants and awards.

Laurel Moran continued to update the forms for grants and awards using the proper GLL branded templates. There has been some discussion on changing the format of the forms from pdfs to Word documents to allow members to complete the forms digitally.

The Committee also worked with Malinda Muller, Chair of the Membership & Mentorship Committee, on the GLL Mentoring Skills Inventory by revising and monitoring the survey, and ensuring new mentors are added to the web page.
