

Digitization and Educational Technology SIS Annual Report 2017/2018

DET currently has 94 members and is no longer the smallest SIS. We are actively advertising our SIS and what we offer, especially to newer members of AALL. We presented one program at the AALL Annual Conference, Biological Evidence for the Effective Use of Educational Technology, with speaker Richard W. Prather of the University of Maryland Department of Human Development and Quantitative Methodology. Our Educational Technology Roundtable focused on web accessibility issues and the ADA and was led by Ryan Overdorf.

DET was explained with a colorful double-sided flyer that was passed out at CONELL and posted in the Exhibits SIS area, and also passed out at other meetings. Ryan Overdorf represented DET at CONELL.

In the coming year DET will have a Website Reviewer - Margaret Kiel-Morse, who will be looking at our website, suggesting content changes to our Board, and communicating with Chris at AALL headquarters to get approved changes made.

Officers for 2017/2018:

Chair: Patricia Sayre-McCoy

Vice Chair: Ryan Overdorf

Immediate Past Chair: Laura Ray

Secretary/Treasurer: Terrence McCormack
