

Micrographics/Audiovisual SIS 2011-2012 Annual Report

The Micrographics/Audiovisual Special Interest Section officers for 2011-2012 were Ryan S. Overdorf, Chair; Laura Ray, Vice Chair/Chair-Elect and Terrence McCormack, Secretary/Treasurer.

M/AV-SIS continued its ongoing transition with a program on dealing with the implications of microforms as a legacy format. It reaffirmed its commitment to preservation issues by cosponsoring a program on digitization.

It returned to the issue of electronic licensing with a program on Creative Commons licenses. This program dealt with Creative Commons from both a creator's and a user's perspective.

Because of the importance of educating SIS members regarding the changes to the Annual Meeting, M/AV-SIS temporarily postponed further dialogue with members regarding a possible name change. This issue will be revisited at some point during the coming year.

Ryan S. Overdorf
Chair, 2011-2012
