

SEARCH CONSTRUCTION EXERCISES

These exercises accompany Part II: E-Research

---

(1) If you were looking for information relating to “murder”, what other terms might you use in an online search, together with “murder”, to find information?

(2) How would you *truncate* the following to expand your search? What word alternatives would your truncation produce?

Obligation

(3) Format a proposed online search query for each of the following questions. Use alternative terms, truncation, proximity and nesting as needed.

Can a city pass a law setting a curfew to make teenagers be home by midnight?

Can a retail store be sued if a customer is injured in the restroom of the store?
