

2018 A Legal Research Odyssey: Artificial Intelligence as Disruptor

By Jamie J. Baker. 110 Law Libr. J. 5 (2018).

Article Categories: Artificial Intelligence & Legal Analytics

Keywords: Algorithms; Artificial Intelligence; Automation; Disruption; Legal Research Instruction; Natural Language Processing; Technology

Reviewer's Summary:

The author begins with an explanation of artificial intelligence and reviews its current application in various fields, such as finance, medicine, and law. She goes into detail about the dangers of premature disruption, analyzing the current state and computational abilities (and limitations) of artificial intelligence. The author also outlines potential biases and ethical issues that could occur with over-reliance on algorithms or AI and discusses the implications for legal research instruction.

Summarized by: Robin Schard, University of Miami School of Law Library, in 2019.
