HEADS OF CATALOGING IN LARGE LAW LIBRARIES

STATISTICS
FOR
FY 1994/95

AMERICAN ASSOCIATION OF LAW LIBRARIES

Introduction

These statistics have been gathered from the Heads of Cataloging in Large Law Libraries Discussion Group of the American Association of Law Libraries. Although the group is traditionally composed of the twenty-five largest law libraries in the Association, the meetings of the Group (scheduled at the AALL Annual Meeting) are attended by representatives from many libraries of all sizes. The cataloging issues discussed at these meetings, and the statistics gathered in this report, are relevant for technical services units throughout the Association.

These statistics are meant to provide a rough comparison of the reporting libraries. Because of local variations in statistics-collecting practices, differing interpretations of the definitions of certain terms, and the ebb and flow of staffing for special projects, no absolute comparison can be made based on these figures. The purpose of the survey is merely to give a ballpark approximation of the relative level of activity in certain areas of cataloging. For a more detailed explanation of a library's statistics, please contact the librarians listed at the end this report.

For Fiscal Year 1994/95, twenty-five libraries were asked to submit statistics. Of those, twenty-one eventually forwarded their statistical information. The compilation was performed at Boalt Hall Law Library, University of California, Berkeley. Preliminary copies of the tables were sent to each of the participants, to allow them to proof read and correct their own information. The tables were then updated, reproduced and collated, and advance copies of the final report were sent to the reporting libraries. Additional copies were distributed at the AALL Annual Meeting in Indianapolis, July 1996.
