St. Louis	402,622	271,698	647,320

Comments

Boston University

- Given system restrictions and migration-related issues, we were not able to differentiate between monograph and continuing titles for our vendor supplied electronic records in 2012/2103. However, for subsequent years, we hope to be able to do so.

Russell Sweet

Cornell University

- We do not differentiate between vendor & outsourced records.
- We do not keep statistics on electronic cataloging backlog.
- Shared cataloging figures include titles added to existing Cornell University Library records.
- All authority records are NACO.

Jean Pajerek

George Washington University

- Cataloging does not maintain statistics by type of copy for recataloged materials.
- The cataloging dept. is current in its cataloging of recently published materials. The backlog consists of storage or rare materials for which brief records are available in the local catalog. Cataloging was able to clear 1509 titles this year from this growing collection.
- As of March 2013 law shares its system with GW's medical library.

Virginia Bryant

St. Louis University

- There are some changes at the St. Louis University Law Library. The Tech. Services has been merged with the Main Library on campus starting January 2014. Though reporting to the Main Library, the Tech. Services staff are still located in the law library, cataloging and processing all the law materials.

Ting James

Stanford University

- Student FTE for special projects includes extra students hired to move our volumes from the third floor to the basement.
- If no entry, then we do not keep track of statistics, for example LC versus other types of records. We also do not count any recataloged records.
- The total number of nonprint monographic titles includes some serials. These are outsourced records that are added to the catalog by the main library. I receive only the total number of records.
- We don't really have a "backlog"—just half shelf of foreign language titles waiting for copy.

Ryan Tamares

University of Georgia

- Changed categorization of loaded records from all sources to "supplied by vendor." Previous reports had grouped them under "outsourced."

Suzanne Graham

University of Iowa

- Cataloging backlog is measured by # of titles, not linear feet = 743 titles.

Karen Nobbs

University of Michigan

- Our cataloging statistics include in-house and outsources (BSLW) only. They do not include vendor bibs (e.g. Serials Solutions).
- We do not track source of call number for reclassified titles.

Abigail Bibee

University of Pennsylvania

- Total number of titles cataloged includes 142 local (e.g., non-OCLC) print records and 8 local records for electronic faculty papers in SSRN. Vendor records are sourced from BNA, CALI, Marcive, LLMCdigital, Cassidy, and Serials Solutions. Outsourced print monographic records are from OCLC's WorldCat Cataloging Partners.
- We make no distinction between recon and recat.
- We do not report source of copy used for recon or recataloging, and do not report the source of call number for reclassified titles.
- Support staff member responsible for copy-cataloging and cataloging of all German-language materials was on leave for the second half of the fiscal year and has since retired. Her position will either remain unfilled or be repurposed as a Public Services position.

Judy Vaughan-Sterling

University of Washington

- Professional FTE: one .40 FTE; another .50 FTE provided by staff from another unit. Support staff: one 1.0 FTE and one .625 FTE, who catalog along with other duties.

Ann Nez

Yale University

- Serials Solutions, Oxford Scholarship / UPSO, Muse eBooks, Cambridge eBooks, Cassidy W/L/select Hein/CCH: 31995 new, 29071 revised (SS RDA conversion).

Total New Titles Cataloged all formats	10843	100.00%
Shelf Ready	2426	22.37%
Total LC all types	2158	19.90%
Total Member all types	4351	40.13%
Total Original all types	1908	17.60%
