

Micrographics & Audiovisual SIS Annual Report 2013-2014

The Micrographics & Audiovisual Special Interest Section focuses activities in three key areas: presentation, production, and preservation. We promote the use and production of audiovisuals and graphics, audiovisual collection development, and the legacy management of microform collections.

This year we produced an independent program titled, "Demonstrative Evidence, Courtroom Technology, and Trial Practice", for the annual conference and it was well received by the audiences.

We recognize that our roles and activities are evolving with the changes in educational technology and the technological marketplace. To better engage students, faculty, and practitioners in the 21st century, the members of the MAV-SIS see a need to re-envision our organization. Ryan Overdorf, our 2012-13 Past, Chair, chaired a task force that polled MAV-SIS members to determine how we can best address their needs. The Board of our SIS had a business meeting during the annual conference. All board members agreed to change our SIS's official name from Micrographics & Audiovisual SIS to Digitization and Educational Technology SIS. A formal name change request has been submitted to the AALL Chair of Bylaw committee by our incoming Chair Joel Fishman and it is waiting for the decisions.

The Board and members of the SIS have elected Michael Klepper, the Senior Reference Librarian from the School of Law of University of Virginia, as the Vice-Chair/Chair-Elect for the term of 2015-2016.

2013-14 MAV-SIS officers were:

Chair

Wei Fang

wfang@kinoy.rutgers.edu

Vice-Chair/Chair-Elect

Joel Fishman

fishman@duq.edu

Secretary/Treasurer

Terrence McCormack

Cormack@buffalo.edu

Immediate Past Chair

Laura Ray

Laura.Ray@law.csuohio.edu

See our web site (<http://www.aallnet.org/sections/mav>) for additional information.

Respectfully submitted,

Wei Fang, 2013-2014 MAV-SIS Chair
