

**Document Delivery Caucus  
Annual Report 2014-2015**

In 2015 the Document Delivery Caucus worked on updating its community page and list of document delivery suppliers. Caucus webmaster David Zopfi-Jordan headed this restructuring and along with assistance from Chris Siwa at headquarters the community page now reflects the work of the group. This work will continue into 2016 as we expand the information on our community page and begin discussions on specific document delivery issues.

At the 2015 AALL meeting the caucus invited a representative from OCLC to attend our session to provide insight and guidance on the new OCLC WorldShare products. The discussion included suggestions from our members as well as tips from OCLC. The lively discussion proved extremely helpful and we are hopeful we can continue this relationship in the future.
